

## Battery Powered Mobile Productivity Lift with body panel/door accessory

Shown: MW5  
CE 130 lbs. capacity battery powered mobile productivity lift with body panel/door accessory

### Increasing Productivity with Rotary

Increase the productivity in your body or workshop with Rotary. A battery powered mobile productivity lift assists technicians with everyday work and contributes to making those tasks easier.

### Body Panel/Door Benefits

- Raise and lower body panels and doors
- Helps reduce damage to doors and panels by easily lifting them into position
- Insures correct alignment of body assemblies by limiting the physical strain to the technician
- Also lifts wheels

CE 130 lbs. capacity battery powered mobile productivity lift

## Features

### Safety and Protection

The two parking brakes ensure the lift will not move when in use. The lifting spindle is enclosed to protect it from dirt and other debris.

### Low Center of Gravity

The mobile productivity lift stabilizes the load utilizing the four rollers and a low center of gravity.

### Rotating Casters

All caster wheels rotate a full 360° for greater maneuverability, easier movement and precise mounting.

### Double Lithium Battery

The double lithium battery provides up to 100 lifting cycles. The supplied universal charger quickly recharges the battery for continuous use.

### Body Panel/Door Adapter

The adapter easily tilts forward, backward and sideways for mounting, and adjusts up or down to fit all types of body panels and doors.

**CE** 130 lbs. capacity battery powered mobile productivity lift with body panel/door accessory

### One Hand Operation

One hand operation is simple for raising and lowering the lift.

### Interchangeable

The mobile productivity lift is easily interchangeable with the wheel adapter.

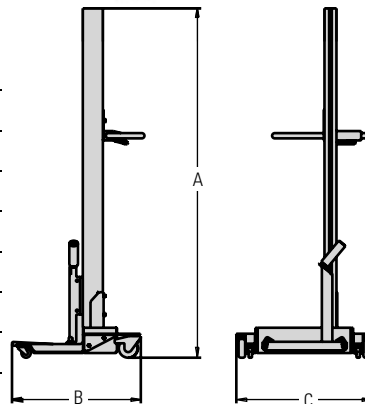

### Storage and Convenience

The mobile productivity lift has a tool and lug nut storage area located right on the lift.

## Specifications

Model:	MW5
Rise	56 5/8" (1400 mm)
A. Height	73 1/2" (1865 mm)
B. Width	28 1/2" (726 mm)
C. Length	27" (688 mm)
Wheel Dimensions (min-max)	135/80 R13 - 295/25 R22
Weight	132 lbs. (60 kg)
Lifting Capacity	130 lbs. (58.97 kg)
Rise Time	18 seconds
